CERTIFICATION REQUIREMENTS:

ACI will grant certification only to those applicants who meet both of the following requirements: A passing grade on the ACI written examination; AND successful completion of the ACI performance examination.

The one-hour **written examination** is closed-book and consists of approximately 60 multiple-choice questions. There are between eight and 12 questions on each of the ASTM test methods and practices.

The **performance examination** is also closed-book and requires actual demonstration of select field procedures described in ASTM test methods C140/C140M, C780, and C1019. The examinee is judged on his/her ability to correctly perform (or describe, where allowed) required steps for each procedure.

Recertification is necessary every five years and requires successful completion of both the written and performance examinations.
